Berries and Bannock

Berry picking is such a gift!

We travel with family and friends to our favourite berry picking spots. We share drinks and snacks like strawberry juice and Bannock. It's so much fun!

Did you know, electric vehicles don't need a big engine in the front? Instead, there's a frunk (front trunk) to keep your delicate berries safe until you get home!

Color the picture. Fill your baskets up with berries. In the background, include pretty trees, or a sunset, or your family ♡

Fishing with Family and Friends

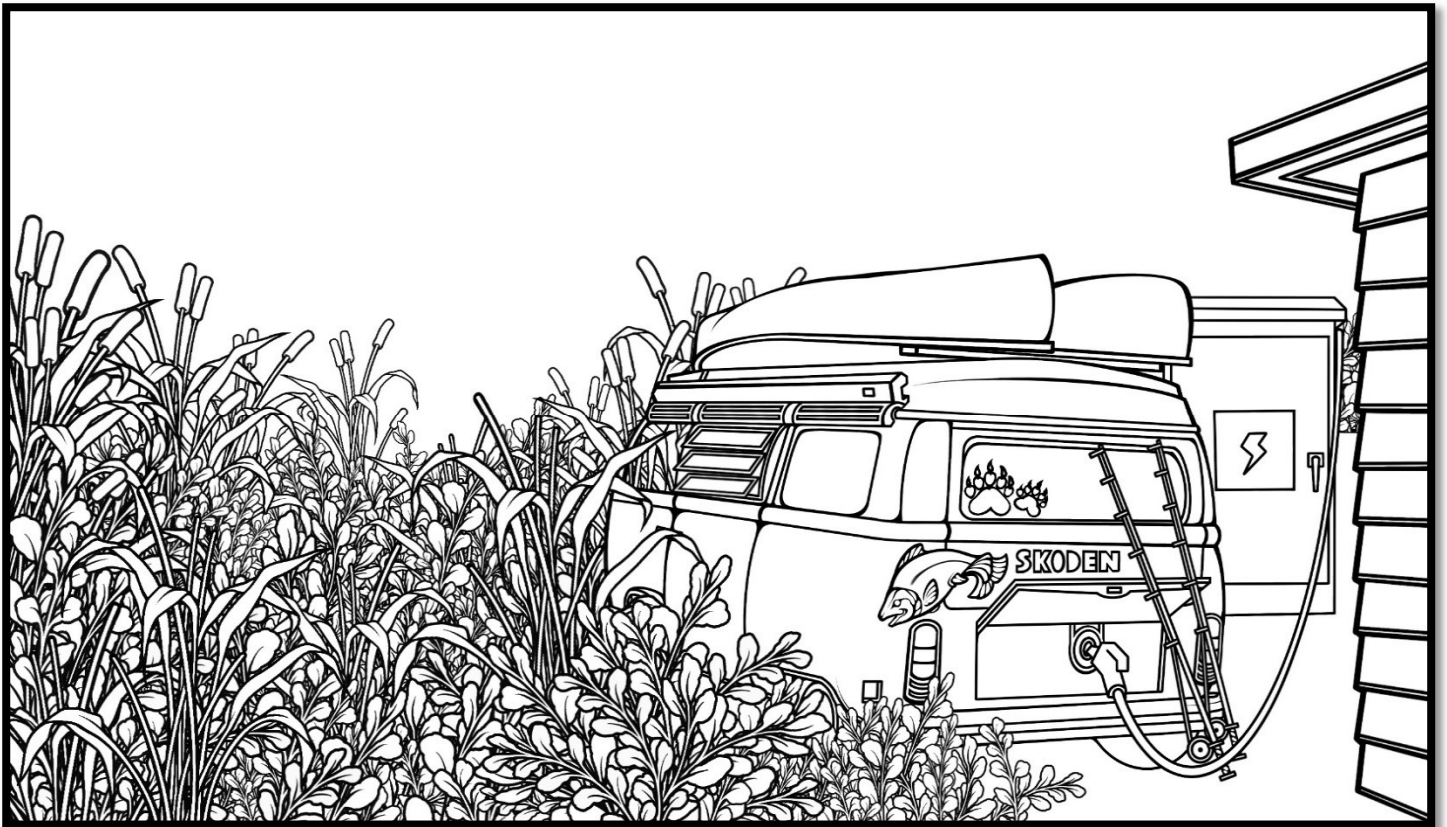

In my family, we call fish "fiss" to be silly.

We have many stories about our fish ancestors.

We learn from our elders about how to appreciate, respect and celebrate our fish kin (family).

Electric vehicles use electricity to move instead of gas.

It makes us feel good to know that electric vehicles don't drip any oil or gas onto the land or into the water.

Autumn Afternoon Drive

In the autumn, some trees get ready to rest for the winter. Their leaves turn brilliant shades of yellow, orange, red, and sometimes purple.

It's so fun to wrap up in a scarf, drink warm tea, and go for an afternoon drive.

Our electric vehicle is so quiet. If we put the car windows down, we can hear the leaves fluttering in the breeze.

Fill this picture with your favorite colors. Don't forget the pretty Kokum scarves and sweetgrass (Hint: the sweetgrass is resting on the rear-view mirror).

Draw Your Own Electric Vehicle

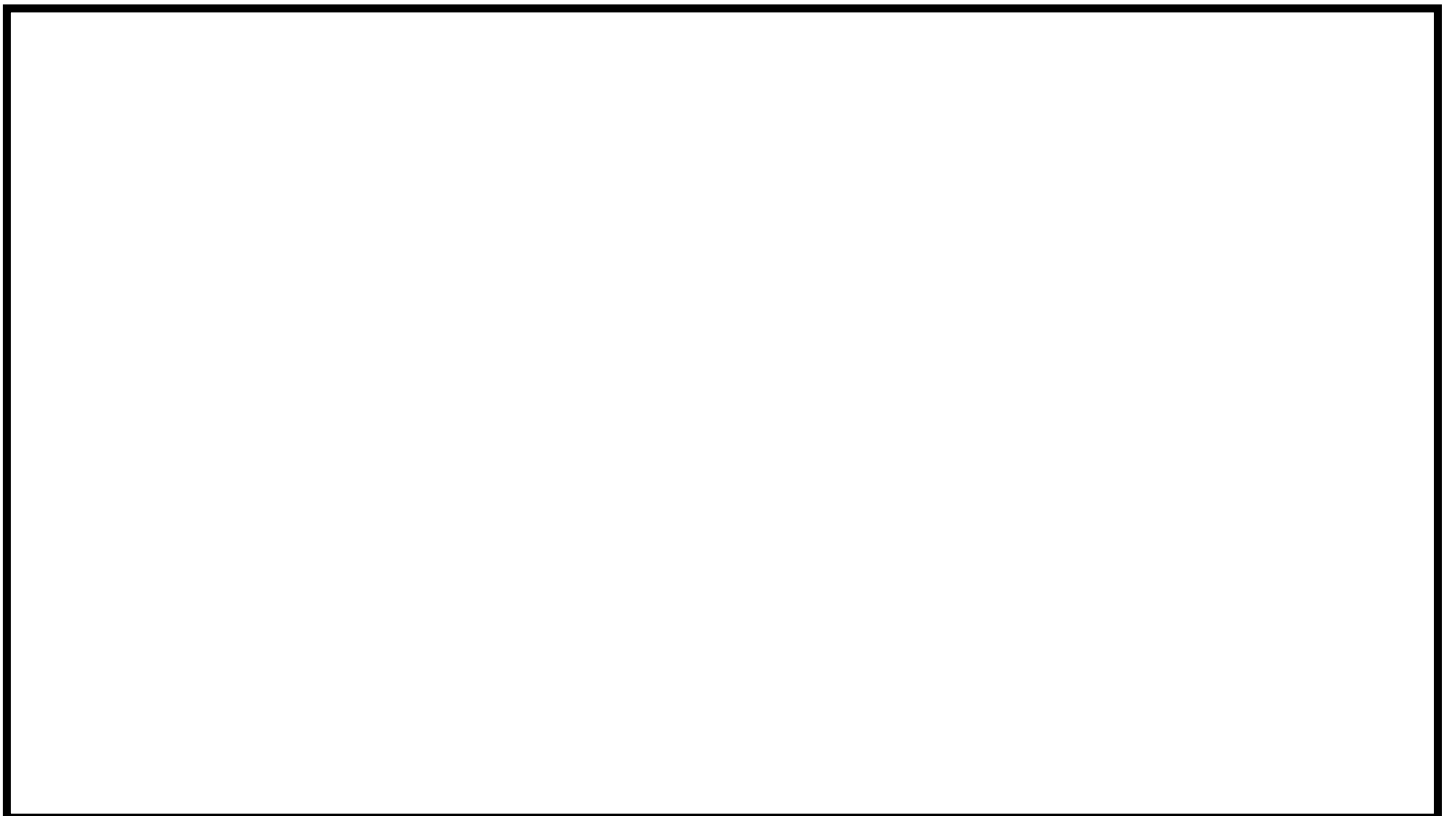

What kind of vehicle is it? (Hint: It could be a scooter, car, truck, bike, or ATV.)

What colour is it?

Where are you driving? (Make sure to include the land, water, or sky in your background.)

Who are you with?

What's your favourite thing about your electric vehicle?

ZEVs Across the Land

Our new skidoo is powered by electricity!

We travel our beautiful land to fish, hunt, and visit friends.

Homes in our community are often bright beautiful colors. The snow and sky are full of color too! (Hint: What colors do you see during sunrise or sunset? Add these pretty colors to your sky and snow.)

What's the name of your dog?

Glossary of Terms
